SULZER MAY FACE EXTORTION CHARGE

Impeachment Managers Considering Accusation.

New York, Sept. 17.—Charges of extortion may be brought against Gov. Sulzer in addition to the other charges against him when he comes before the high court of impeachment on Thursday next.

Contractor Is Examined.

Contractor Hugh J. Reilly claims that Sulzer got at least \$25,000 from him, and he alleges that Sulzer exacted the money in return for his services in securing a settlement of Reilly's claims for \$558,000 for constructing the waterworks at Cienfuegos, Cuba. It is also alleged that a few days ago when Sulzer was in this city he demanded \$40,000 from Reilly with which to fight the impeachment proceedings, and when this was refused declined to make good the \$25,000, which he regarded as a loan. Reilly was examined privately by the board of managers Tuesday and extraordinary efforts were taken by Chairman Levy and Counsel Kresel to prevent any of his testimony leaking out. From a reliable source, however, it was learned that immediately after Reilly secured a settlement of his claims against Cuba, Sulzer went to him and begged for money, stating that he had debts that must be paid at once, and that as he was going to be the Democratic candidate for governor he wanted to clear his skirts.

Not for Campaign Purposes.

Reilly denied that the money advanced was for campaign purposes, but he regarded it as a loan, and said that he took no security except the governor's personal word.

Reilly says that when the governor was in town last week, on the suggestion of former Gov. Sprague, he went to 115 Broadway and there met Sulzer in company with Sprague and Melville B. Fuller, the broker. When he demanded his money back, Sulzer said: "I have only got \$11,000 in the world. You wouldn't take my last cent, would you? Instead of nagging me for money, I wish you would give forty or fifty thousand dollars to fight this impeachment."

Chairman Levy left for Albany last night, where there was a meeting of the board of managers today, and it will be determined whether or not the assembly shall be asked to pass upon new charges before the court meets on Thursday.

DRINKS CREOSOTE BY MISTAKE

Polish Girl Is Rushed to Hospital, But Efforts to Save Her Life Are Futile.

New York, Sept. 17.—Liebe Pranis, an 11-year-old Polish girl, who arrived at Ellis Island recently in care of her aunt, was accidentally poisoned, it is said, through swallowing creosote. The child was detained for investigation, as the woman who accompanied her from Europe said she was the girl's mother, but afterward asserted she was her aunt.

Liebe got hold of some creosote compound that the cleaners were using in the room she was in and swallowed a quantity of it. She was taken at once to the hospital, and every effort was made to save her, but she died a few hours later.

ASKED BOARD PAY, ENDS LIFE

Man, After Telling Landlady to Wait Minute, Goes to Room and Blows Out Brains.

Yonkers, N. Y., Sept. 17.—When asked by his landlady to pay his board bill, Carl Wasserman, stopping at the Cotton house in Yorktown Heights, asked her to wait a minute and went to his room.

Soon after Mrs. Cotton heard a shot fired. Calling Sergt. Smith of the Watershed police, she found Wasserman's body on the floor with a bullet in his temple. Beside it lay a 38-caliber revolver. He was 82 years of age and leaves a brother, F. H. Wasserman of 14 Willow-pl, of this place. He was notified.

Independents Lose in Penny.

Philadelphia, Sept. 17.—The non-partisan ballot had its first trial in Pennsylvania Tuesday and it is certain that the Republican organization of the state has recovered the prestige of which it was short when Roosevelt carried the state in the last presidential election. From incomplete returns it is certain from the results of the primaries that the independents will be snowed under at the November elections.

Fire Burns Out Block.

New Rochelle, N. Y., Sept. 17.—Fire that destroyed a big department store of the Howard B. Ware corporation was extinguished after it had caused a loss of about \$300,000. The burned area covered an entire block on Market, practically the same site that was burned over by the great fire of 20 years ago.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THAW'S CHANCES FOR FREEDOM BRIGHTENS

His Attorneys Gain Point in Federal Court.

Petition Is Granted to Suspend Hearing on Habeas Corpus Writ Until After Governor Acts on Extradition Case.

Littleton, N. H., Sept. 17.—Owing to a unique condition brought about by the decision of Judge Aldrich in the United States district court Tuesday, Harry K. Thaw is nearer freedom than at any time since he shot Stanford Whitte. Judge Aldrich granted the petition of the Thaw attorneys to suspend the hearing on the federal habeas corpus writ until after Gov. Felker has held the extradition hearing next Tuesday.

The terms of Judge Aldrich's decision are such that even should Gov. Felker decide to sign the extradition warrant in the Thaw case, it will first be necessary for William Travers Jerome, special deputy attorney general for New York, to prove Thaw sane before the federal judge will allow the prisoner to leave the custody of the federal officers. The decision of the district court is:

That Thaw remain in the joint custody of the federal officers and the sheriff until after the hearing before the district court is resumed.

That Jerome may ask Gov. Felker to extradite Thaw on the charge of conspiracy.

That if the governor does extradite Thaw it will be necessary for Jerome to show the United States court how an insane person can commit a crime.

It then becomes apparent that it will be necessary for New York state to prove Thaw sane before being allowed the custody of the prisoner by the federal court. In this event New York state would have nothing on which to hold Thaw, as there is no indictment pending against him, and the only charge which could possibly be preferred against him is that of conspiracy.

While Judge Aldrich decided to suspend the hearing before him until after Gov. Felker has rendered his decision, the federal judge reserves the final say for his court and will then pass upon the question of whether the action of the governor infringes upon Thaw's rights under the constitution.

GANG FIGHTING AT PRIMARIES

Men in Large Auto Open Fire With Revolvers on Occupants of Another Machine in Gotham.

New York, Sept. 17.—Gang fighting over the primary contest on the part of rival Tammany leaders in the Fifth assembly district culminated in a shooting in front of the Lincoln Square theater, at Broadway and 65th-st., terrorizing hundreds of people. Shortly after 5 p. m. a large car containing six men came to a stop in front of the theater. Several of the occupants suddenly arose from their seats and, drawing revolvers, opened fire on a machine which had the appearance of being in pursuit. The men in the machine in the rear returned the fire. Six shots were exchanged, when the chauffeurs put on speed as passersby, in terror, made for cover.

Two policemen of the traffic squad heard the shot. Patrolman Neary jumped on the running board of an automobile whose owner was willing to follow the fleeing gangsters. The policeman overtook the fugitive car and at the point of his revolver placed the chauffeur and his three companions under arrest. No one was injured by the shooting.

John Purroy Mitchell, at the head of the fusion ticket, and Edward E. McCall, with the Tammany ticket, carried the primaries with practically no opposition to either ticket in any part of the city.

Rest Is Forgetfulness.

"Who does not love to shuffle off time and its concerns at intervals to forget who is president and who is governor, what race he belongs to, what language he speaks and to listen to the great liquid metronome as it beats its solemn measure, steadily swinging, when the solo or duet of human life began, and to swing just as steadily after the human chorus has died out and man is a fossil on its shores."—The Autocrat of the Breakfast Table.

Opening Displays of New Millinery

Designers have accomplished the apparently impossible again! They've made the new hats more dashing than ever before--really, every hat we show in this wonderfully artistic Autumn array seems endowed with a chicness and becomingness that are simply irresistible.

It's the assemblage that holds the greatest interest for women who lean towards the different and dignified in preference to the ordinary and overdone head-wear.

The new hats are mostly of Velvet, high-pile Plushes, Hatter's Plushes and Moires--of very clever small and medium shapes, the favorite colors including rich purples, the prettiest blues, the tasteful tawpes, bottle greens, beautiful browns, the new mahogany and, of course, black.

What Are the Hats Like?

Where there's so much of newness and beauty, just the barest descriptions are possible.

High side flares are very prominent; also hats up-turned at the back, called the "Niniche" effects; and there are smart, soft draped models draped high to the side or across the top--and the youthful looking "tam" crowns in many variations.

Trimmings are of many furs, Paradise, peacock feathers, gaura, Japanese airgrettes, Numidi, wings, plumes, flowers and ribbons, with a decided tendency to high, shooting effects.

Parisian reproductions that American women will really wear, and Americanized adaptations of our own--priced to please everybody--from \$3.50 to \$65.00.
